YOUR MEDICINE SOURCE FOR U.S. SAFETY-NET AND CHARITABLE CLINICS.
Blessings International is a licensed, non-profit organization that partners with charitable, low-cost, or sliding scale safety-net medical providers in the United States of America. Our healthcare partners focus on the uninsured and underserved communities across the nation.

At Blessings International, we realize that one major obstacle for safety-net providers is access to a consistent supply of affordable medications. Our mission is to fill in the gaps between Patient Assistance Programs and donated medicines by offering low cost and subsidized medicines to reach the most neglected patient populations in America.

Our desire is to provide exceptional customer service, long expiration dates, and consistent inventory. We do not rely on manufacturer donations. Rather, we purchase all of our medicines to ensure we maintain a robust inventory so that our partners do not lack in providing the most dependable compassionate care for their patients.
CUSTOMER SERVICE

At Blessings International, we realize that each of our partners brings health, hope, and healing to the most marginalized and vulnerable patient populations in America. It is our desire to come alongside your organization and provide support through high quality and affordable medications.

We have a dedicated customer service team, ready to answer any question or receive any feedback you may have for Blessings International.
