

To All Applicants of Bless the Nations Pharmaceutical Grants:

Blessings International exists to heal the hurting globally by providing life-saving pharmaceuticals, vitamins and medical supplies to medical mission teams, clinics and hospitals; to build healthy communities by treating the poor and victims of endemic medical problems, outbreaks of disease or overwhelming disasters; and to transform lives by actively demonstrating the love and compassion of Jesus Christ.

To that end, Blessings International has created the Bless the Nations fund with the intent to grant pharmaceuticals to qualifying clinics, hospitals and other medical outreaches that work to both heal the physical person and demonstrate the love and compassion of Jesus Christ. The application that is required to be completed and submitted will provide Blessings International with an overview of your organization. Even though your organization may not be able to completely answer each and every question, please do not forego submitting the application. Blessings International will evaluate each application and the responses provided. For applicants that are determined to be a potential recipient of medicine and medical supplies from the Bless the Nations fund, an additional set of questions will be submitted for response.

To apply for a grant, please visit our website at [www.blessing.org/world-impact/#bless\\_nat](http://www.blessing.org/world-impact/#bless_nat) and follow the instructions regarding submission of the Bless the Nations Fund Application. Preference will be given to hospitals and clinics operating in developing nations that are locally funded and operated, although this is not a requirement for applying. The amount of awarded grants will be based upon the perceived need of the hospital or clinic as solely determined by the Bless the Nations Committee and the available inventory of pharmaceuticals and medical supplies through Blessings International.

Thank you for your interest in Blessings International and Bless the Nations and may God bless the work your organization is doing.

Sincerely,

Barry Ewy, PharmD, JD, MHA  
CEO
